explication not speculation

things are manifolds of their “appearances.”

things are the logical syntheses of their moments.

thing  $\approx$  object  $\approx$  entity

synthesis  $\approx$  unity  $\approx$  system

appearance  $\approx$  aspect  $\approx$  moment

rejection of indirect realism

constituting ideality  $\approx$  demystification of Plato’s forms

the forum

concepts are “between” us

“nonduality”

stream of phenomenal “consciousness”  $\approx$  “torrent”

ontological different

torrents *constituted* by situations constituted by objects

“consciousness” not a stuff but world-from-point-of-view

radical pluralism

intentional objects are fundamental
